'Focus Puglia. Governance dell'innovazione in oncologia e oncoematologia' - 17 Novembre 2020 - ORE 10

scritto da: [Motore sanita](#) | [segnala un abuso](#)

FOCUS PUGLIA. GOVERNANCE DELL'INNOVAZIONE IN ONCOLOGIA E ONCOEMATOLOGIA', organizzato da **MOTORE SANITÀ**. Lo scenario di innovazione tecnologica che si prospetta nei prossimi anni in molte aree terapeutiche, è senz'altro molto ricco di contenuti, che fanno ben sperare i pazienti affetti da malattie fino a qualche anno fa a prognosi infausta, in una cronicizzazione se non addirittura in alcuni casi in una guarigione.

Gentile collega,

domani **17 novembre** dalle **ore 10** alle **13:30**, si terrà il webinar:

'FOCUS PUGLIA. GOVERNANCE DELL'INNOVAZIONE IN ONCOLOGIA E ONCOEMATOLOGIA', organizzato da **MOTORE SANITÀ**.

Lo scenario di innovazione tecnologica che si prospetta nei prossimi anni in molte aree terapeutiche, è senz'altro molto ricco di contenuti,

che fanno ben sperare i pazienti affetti da malattie fino a qualche anno fa a prognosi infausta, in una cronicizzazione se non addirittura in

alcuni casi in una guarigione. Un caso paradigmatico di questo evolvere è senz'altro rappresentato dall'oncologia e dall'oncoematologia,

dove lo sforzo di trovare sempre migliori armi per combattere malattie prive di terapie efficaci e ben tollerate, è stato ed è una vera e propria

lotta contro il tempo, per molti ricercatori, per molti clinici, per molte famiglie. Basti pensare alle ultime linee di terapia del mieloma multiplo

per l'oncoematologia con aspettativa di vita che non va oltre i 9 mesi o al tumore ovarico che con 5200 nuovi casi annui in Italia e circa

trentamila le donne attualmente in trattamento, rappresenta il 30% di tutti i tumori maligni dell'apparato genitale femminile.

Se ritieni meritevole il nostro lavoro fai una donazione

Diabete: come non rimanere fregato dal Covid

scritto il 16-11-2020

Il **14 Novembre** è la **Giornata Mondiale del Diabete**. Questa patologia vista la sua grande diffusione è considerata l'epidemia del **21° secolo**. La giornata Mondiale del Diabete ha anche visto la conclusione la settimana di eventi formativi e informativi rivolti a cittadini e specialisti organizzata da **Diabete Italia Onlus** in collaborazione con **Motore Sanità**.

COMUNICATO

STAMPA Diabete: come non rimanere fregato dal Covid Il **14 Novembre** è la **Giornata Mondiale del Diabete**. Questa patologia vista la sua grande diffusione è considerata l'epidemia del **21° secolo**. La giornata Mondiale del Diabete ha anche visto la conclusione la settimana di eventi formativi e informativi rivolti a cittadini e specialisti organizzata da **Diabete Italia** ([continua](#))

"Cirrosi epatica: Aderenza alle terapie, prevenzione e presa in carico per migliorare qualità di vita del paziente e sostenibilità del SSN"

scritto il 13-11-2020

Padova, 13 novembre 2020 – Migliorare l'aderenza alla terapia, prevenire complicanze gravi come encefalopatia epatica e ascite, potenziare l'assistenza domiciliare, formare il paziente e il caregiver, rendere sostenibili le cure e aumentare la qualità e l'aspettativa di vita. Questi gli argomenti discussi, con i principali interlocutori del Veneto, durante il Webinar: **"Focus La realtà italiana della**
