## SALUTE. DIABETE 2, DA OGGI MEDICI FAMIGLIA POSSONO PRESCRIVERE NUOVE TERAPIE

'LA PROFESSIONE, RIMASTA UN PO' A DIGIUNO DALL'ASPETTO PRESCRITTIVO DEI NUOVI FARMACI' (DIRE)

Roma, 3 feb. - Da oggi anche i medici di medicina generale possono prescrivere le nuove terapie per la cura del Diabete di tipo 2 (che in Italia interessa pi? 3,6 milioni di persone), grazie all'approvazione della NOTA 100 da parte dell'Agenzia italiana del Farmaco (AIFA). Si tratta di un passaggio molto atteso, richiesto sia dalle Associazioni di pazienti sia dai Medici, che consentir?lla Medicina generale di acquisire un ruolo primario nella gestione integrata del Diabete. Cos?n una nota di Motore e Mondo Sanit? L'impatto della malattia dal punto di vista clinico, sociale ed economico sul Servizio sanitario nazionale (SSN) e sui Servizi sanitari regionali (SSR)?olto importante. I dati diffusi dal Rapporto Arno indicano che: 7-8 anni?a riduzione di aspettativa di vita nella persona con Diabete non in controllo glicemico, il 60% almeno della mortalit?er malattie cardiovascolari?ssociata al Diabete, il 38% dei cittadini con Diabete ha insufficienza renale (pu?rtare alla dialisi), il 22% ha retinopatia, il 3% ha problemi agli arti inferiori e piedi. Il 32% dei soggetti?n et?avorativa (20-64 anni), con prevalenza del 10% fra le persone di 50-69 anni, l'8% del budget del SSN?ssorbito dal Diabete con oltre 9,25 miliardi di euro di soli costi diretti, a cui ne vanno aggiunti 11 di costi indiretti; la spesa, desunta dai flussi amministrativi, indica una cifra doppia rispetto ai cittadini non diabetici. Attraverso la Nota 100 AIFA, che apre la prescrizione di queste terapie ai Medici di base, si genera adesso una grande opportunit?Ma questo nuovo scenario da anni atteso e auspicato, consentir?n pi?pido accesso alle cure per i cittadini, consentendo un onere organizzativo ridotto, una semplificazione dei percorsi di presa in carico, liberando spazi utili per le liste d'attesa? Per rispondere a questa e ad altre domande sul tema, Motore Sanit?in collaborazione con Mondosanit?ha organizzato il Talk Webinar "Nota 100 - una vittoria per tutti", coinvolgendo i principali attori della filiera. "Finalmente c'?n avvicinamento della medicina al cittadino, che potr?ssere curato nel proprio territorio con quel contatto diretto che c'?empre con il proprio medico di famiglia", ?l commento di Stefano Nervo, Presidente Diabete Italia: "Un'ottima notizia, per la quale anche noi di Diabete Italia avevamo pi?olte sollecitato AIFA. I punti che dobbiamo ancora capire su come evolver?a situazione vertono sostanzialmente sulle domande: la medicina generale?ronta? Quanti sono al momento i
