IMAGING OF RHEUMATIC DISEASES IN ADULTS AND CHILDREN

September 7
and 8, 2023

SYNOPSIS

Imaging course focused on rheumatic musculoskeletal disease of pediatric and adult patients with national and international speakers expert in the field and members of the Arthritis Subcommittee of the European Society of Musculoskeletal Radiology (ESSR).

The event which will include lectures and interactive interactions between the faculty and the participants is for radiologists working in the musculoskeletal field as well as for general radiologists, pediatricians, and internal medicine physicians interested in this heterogeneous group of diseases. During the course the role of different radiological techniques, including radiographs, ultrasound, dual energy CT and MR will be illustrated considering the main clinical indications, the most frequent radiological signs, differential diagnoses, and disease monitoring during treatment.

The clinical and scientific role of hybrid imaging, such as PET/CT and PET/MR, will also be addressed. There will be also two clinical lectures highlighting the value of integrating radiologists reporting with rheumatologists needs.

IMAGING OF RHEUMATIC DISEASES IN ADULTS AND CHILDREN

September 7
and 8, 2023

THURSDAY SEPTEMBER 7, 2023

8.30 – 9.00

Registration

9.00 – 9.20

Welcome Robert Vettor – Chiara Giraudo

Rheumatic diseases imaging in adults

Moderators: Giuseppe Guglielmi and Andrea Klauser

9.20 – 9.40

Why do we still need radiographs for rheumatic diseases? Overview of the main findings and signs
Lennart Jans

9.40 – 10.00

DECT in gout: When and how? Franz Kainberger

10.00 – 10.20

MRI of the hand and wrist in RA and PsA James Teh

10.20 – 10.40

What is the role of hybrid imaging for rheumatic diseases? Diego Cecchin

10.40 – 11.00

What the rheumatologist would like to know from the radiologist Andrea Doria

11.00 – 11.10

Q/A

11.10 – 11.30

BREAK (Coffee station)

IMAGING OF RHEUMATIC DISEASES IN ADULTS AND CHILDREN

September 7
and 8, 2023

Moderators: Alberto Bazzocchi and Roberta Ramonda

- 11.30 – 11.50** **Imaging of Haemophilic Arthropathy: pioneering the innovation with the HEAD-US system**
Carlo Martinoli
- 11.50 – 12.10** **MR of the spine in SpA: typical findings and main differential diagnoses** Winston Rennie
- 12.10 – 12.30** **Sacroiliitis in SpA: ASAS criteria and beyond** Filippo del Grande
- 12.30 – 12.50** **MR of myositis** Chiara Giraudo
- 12.50 – 13.10** **Ultrasound for inflammatory rheumatic diseases: tips and trick**
Roberto Stramare
- 13.10 – 13.20** **Q/A**
- 13.20 – 14.15** **SMALL BRUNCH**
- 14.15 – 17.00** **How do I diagnose rheumatic diseases at imaging? Interactive discussion with active involvement of the participants (all Faculty)**
- 15.30 – 15.45** **BREAK (Coffee station)**
- 17.00 – 17.15** **Closing Remarks**

IMAGING OF RHEUMATIC DISEASES IN ADULTS AND CHILDREN

September 7
and 8, 2023

FRIDAY SEPTEMBER 8, 2023

Rheumatic diseases imaging in children

8.15 – 8.45

Registration

8.45 – 9.00

Welcome Chiara Giraudo

Moderators: Alessandra Meneghel and Roberto Stramare

9.00 – 9.20

X-ray and US in pediatric rheumatology Paolo Simoni

9.20 – 9.40

Imaging of juvenile idiopathic arthritis Iwona Sudol-Szopinska

9.40 – 10.00

The sacroiliac joint in pediatric inflammatory arthropathies: main signs, differential diagnoses, and pitfalls
Nele Herregods

10.00 – 10.20

Imaging of CRMO and SAPHO Wouter Huysse

10.20 – 10.50

BREAK (Coffee station)

10.50 – 12.30

How do I diagnose pediatric rheumatic diseases at imaging? Interactive discussion with active involvement of the participants (All Faculty)

12.30 – 13.30

SMALL BRUNCH

IMAGING OF RHEUMATIC DISEASES IN ADULTS AND CHILDREN

September 7
and 8, 2023

Moderators: Giulia Fichera and Winston Rennie

- 13.30 – 13.50** **When is the radiologist helping the rheumatologist and when is setting new challenges?**
Francesco Zulian
- 13.50 – 14.10** **Pediatric connective tissue diseases** JDM, JSLE and JSS. Matina Boitsios
- 14.10 – 14.30** **Current and potential applications of PETMR for children with rheumatic diseases**
Pietro Zucchetta
- 14.30 – 14.45** **Closing remarks** (ECM questionnaire)

IMAGING OF RHEUMATIC DISEASES IN ADULTS AND CHILDREN

September 7
and 8, 2023

Registration:

The registration has to be done via the website:

<https://www.motoresanita.it/eventi/imaging-of-rheumatic-diseases-in-adults-and-children/>

144 Euro with taxes

The maximum number of participants is 120.

The interactive discussion will require the use of a free app.

The event is targeted for **radiologists, nuclear medicine physicians, rheumatologists, internal medicine physicians, biologists, radiology technicians and pediatricians.**

CME

To obtain the CME credits it is mandatory to:

- Attend 90% of the course with entry and exit signature
- Filling the evaluation form and the demographic form

Credits n. 7,7
